

The Flight Line

The 1939 aerial photos have been organized into an approximate hypothetical flight line, shown here in yellow. The background photo is a composite of NASA satellite images from 2004 (higher resolution downloadable at <http://sv.gina.alaska.edu>). The red outlines are the five 1937 map sections showing the precise locations of each photo (as best we could tell).

North (photos 8-19)

Palmer
Fishhook Rd.

Matanuska R

Middle (photos 6-7, 41-46)
